

I found a deer bone while we were hiking. We found good sticks
and collected some good fire wood. We tracked down deers and
we found their cement up a mountain. We went to a
small tunnel and we found some meat. we barbecued
and it was raining a lot, every body were in there tents
except the group ups, we got flashlights and dunnycross.

Saadat

I liked the camping trip because
we saw animals. I liked the camping
trip because we had a campfire.
It was so awesome. It was so fun.
I love the camp.

July 17

I liked the camp because of the nature and the hiking too. I mostly liked
the animals and the birds singing in the morning. ~~also~~ found deer
and we tracked some down we also found bear foot prints and
we tracked down a bear we think we saw a bear but we are not
sure. I mostly liked the camp fire in the morning and night
too, we also climbed the mountain we were lost but we found
our way back.

THE CAMP was awesome!

We had lots of fun in the Camp. Hiking was great the first ^{some} time we went and found some bones. We also spotted ~~lots~~ ^{some} wildlife we saw some bears, deers, elk and lots of birds

Postcard from

On the camping trip we saw a family of elk/deer and part of a bear. I also played Frisbee with all my friends and peers. We got the biggest tent, and my tent mates were Bashara, Saleem, Amer, and for one night Omar. We also stayed up late talking and running around. We had really good Breakfast, lunch, and Dinner! The hikes were also really good. We also got a talk from a forest ranger. Omar punched Mathew in the back and missed out on when we saw the bear. Mathew deserved it. Most people were too noisy to see the rest of the bear. Overall we had a great, good, and great trip! It rocked. I'm looking forward to the next one!
